DETAILED ACTION

This Office Action is in response to the amendment filed May 15, 2009, amending claims 1, 12-15, 29, 32, 40-45, and 49-51. Currently, claims 1-15, 20-23, 29-32, 34, 37, 39-43, 45, 49-51, 61, and 65-67 are pending.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 20-23, 61, and 65-67 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 20-23, 61, and 65-67 are directed to non-statutory subject matter because the claims fail to be limited to only statutory embodiments. Claims 20-23, 61, and 65-67 recite limitations for a recording medium capable of being read by a computer. The specification (at least at pages 108-109) discloses the recording medium can be transmission media to include transmissions via network or transmission line (i.e. signal). A waveform or signal does not fall within one of the statutory classes of invention under 35 U.S.C. 101, and thus the claims are non-statutory and rejected under 35 U.S.C. 101.

Response to Arguments

2. Applicant's arguments with respect to claims 20-23, 61, and 65-67 have been considered but are not persuasive. Applicant argues "With regard to claims 20-23, 61 and 65-67, applicant has amended the specification to delete reference to a transmission wave or medium. Thus, the phrase "recording medium" should not be construed to include such embodiments and is thereby

limited to statutory embodiments.” In response, the Examiner argues, while applicant has amended the specification to remove some of the non-statutory embodiments, the specification discloses instances of the recording medium to be transmission via a network or transmission line, being some form of signal.

Allowable Subject Matter

3. Claims 1-15, 29-32, 34, 37, 39-43, 45, 49-51, are allowed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
